Thanks for the quick reply.

You'll have to excuse my lack of knowledge as I am a rather new XOOPS user.

Since I am currently not able to log in as anyone I am also unable to access the admin functions.

I went directly into the MySQL database and switched debug mode on and got this error...

Fatal error: Maximum execution time of 30 seconds exceeded in
/home/edge/public_html/xoops/modules/m_online/blocks/conta_tempo.php on line 15

I guess there is something wrong with that module. I haven't made any modifications to it. I got the module at [http://www.xoops.net.br/modules/wfdow ... glefile.php?cid=6&lid=71&](http://www.xoops.net.br/modules/wfdow...glefile.php?cid=6&lid=71&)

I don't mind uninstalling it but how can I do that without being able to login?
