Contact phppp about this issue and if possible have him redirect www.xoops.net.br over to your site.

Welcome to "XoopsCube.org Admin Group".

To unsubscribe, mailto:Cube-Org_admin-unsubscribe@googlegroups.com

Now I'm waiting an answer from PHPPP (the xoops.org webmaster).

The idea is support [XOOPS Cube](#) and XOOPS Sphere, like www.xoopscube.jp
