URL:

The first release of [XOOPS Brasil](#) will be a XOOPS ISO image

Without space to copy the server, i have found this "monsters" to be 7zipped:

<http://www.fotologs.net/xoops/>

(and.. as prescribed by ISO standard ISO 9660, is a file that represents a one-to-one copy of a specific computer filesystem, most widely used for the compact disc medium. i.e an entire CD or DVD-ROM).
