Hi bluenova

What a nice idea indeed and great collection

That?s a must for people interested in trying modules.
Go ahead with that nice project.

We?re trying to do **almost** the same thing here:

www.xoops.net.br

I liked your idea very much.

thanks

Btw> some modules are giving us blankpages: wakka, galeria, lykos_syndication.....but i know that you?re still tweaking the whole site
