This biggest problem I have ran into with the Avatars is they are visible in CBB 2.2 (Final), but if you are sent a Private Message, the Avatar is blank (x). And this is in XOOPS 2.2 (Stable) (Hotfix).

Here is the error log from cpanel:

The odd part is there is no (Uploads or Images) folder in the PM section. Should I create a folder for both of these? Has anyone been able to see a registered users avatar in the Private Message?
