Hello, I just found a file in [XOOPS Brasil](#) and in this url:

http://developer.berlios.de/project/showfiles.php?group_id=2423

it is a cdbase module, which seems works with XOOPS 2. The authos is the same that the forst version.

tHE FILE NAME IS:

xoops2-mod_cdbase_v1_2_2_mario_figge_xoops.net.br

I will try to install it and work with it.

I will write a bit later.

Thanks!!
