yes, ISmart is a new commercial cms 'xoops based', is a parallel project from www.xoops.net.br and [XOOPS Brasil](#) team

...

Sim Digital or Guvilla's work, legal or illegal, do not have any relationship with [XOOPS BR Support Site](#).

Guvilla is a XOOPS developer and your modules ([eNoticias](#) and e-Empregos) is distributing in brazilian XOOPS community. This is our relationship. I believe what is the same thing with XOOPS Brasil.

The user mauricio seems a old xoops.org's friend...
