URL:

It appears to me you want to change the footer.

I have a test site setup for the purpose of helping to lead people through questions like this.

<http://www.xoops.net.br/>

you may enter the site with full access with **guest** and **letmein** as password if you need to get to areas not normally available to see and test the results of what you are about to perform on your own site before plunging in.

This link will take you directly there.

[http://upnrunnin.hypermart.net/xoops0 ... nces&op=show&confcat_id=3](http://upnrunnin.hypermart.net/xoops0...nces&op=show&confcat_id=3)

Footer: current code.

Powered by XOOPS 2.0 © 2001-2007

The XOOPS Project

You would adjust this code to make your own links.

follow the format to make your link as shown by The XOOPS Project link.

This link MAY NOT be the one needed and the information I GAVE MAY NOT be correct. Anyone who has the theme information needed is invited to enter and publish the link that clearly demonstrates what is needed to accomplish her/his solution.

After testing please try to leave it as it was originally.

Mistakes are forgiven ... so don't let it worry you if you boo boo.

@Tom.

I am interested too Tom, so would you mind providing the necessary link using the example above. I know where it is in the footer, but I don't know how or where to find it in the theme html. (with my setup)

@psaxtiri

Good luck and let me know if this is what you needed.

Thanks
