Thank you amudee -- That was a very enjoyable experience,
I came in and didn't even know the site had been hacked until I saw all the recent activity report.
(yours)

The site wasn't hacked... That takes someone with a bit of knowledge about how to really mess up a site. Just in case I keep a backup of everything important to me and if you are a user here it would be a good idea for you to do the same.

You know, after that trick, I didn't even block your IP.
I gave it some thought but decided naaa, why bother. Everyone has the ability to undo what anyone else has done as fast or even faster than the time it takes the 'so called hacker' to do his thing.

MOVING ON....

BTW: I added a Portuguese friends category today... and several new users...

Thanks to whoever 'returned last edit' and added the additional users. ... nice job!!!

ALSO:

@Amudee, thanks for the backup consideration, but I have that covered so no need for you to worry. ... BlueStocking.

Another Addon Edit: I visited amudee's site and the videos he has done are nice... I enjoyed them.
He will make a nice addition to Xoops.
