**Request:**

I would really like a list of all of the current XOOPS theme designers. ...Biteronboard

**Answer:**

Here is the list of Theme builders I have so far, if you know any more please add them...Myself

**Request:**

In an effort to provide a map to **all** of my site visitors to other great XOOPS theme sites, I propose that **all of us** swap buttons.

**Response:**

I have a Button Swap in process, on End User Community pages.

**YOUR REMARK:**

I dont just want to display their links, i want to do an ---->Exchange<--- so copying stuff from your site will not suit my needs - *What I want is a list of current TD's who want to do an open ended button exchange. ...Biteronboard*

**ANSWER:**

I expected if you were serious you may want to pm or contact the TD's with your request, I thought you really wanted a list, and I responded. I don't consider that Hijacking a thread.

*You don't need to be unnecessarily rude.*

*I have my own button exchange going on as suggested by Herve some while back.*

*I was simply offering to share information and asking for reciprocal consideration.*
